

TN-IPC 2017 List Revision Sources of Information

*All data was compiled in November 2016

- University of Tennessee – Knoxville Herbarium (TENN) - <http://tenn.bio.utk.edu/>
- USDA Plants Database - <https://plants.usda.gov/java/>
- The Biota of North America Program - <http://bonap.net/NAPA/Genus/Traditional/County>
- Southeast Regional Network of Expertise and Collection - <http://sernecportal.org/portal/> (all SERNEC – Southeastern Herbaria were searched by species)
- To demonstrate invasiveness, inclusion of species on other Invasive Plant Council/Exotic Plant Pest Council listed is noted. These lists were generated by regional bodies that encompass the Southeast (in whole or part) or groups from adjacent states. Some adjacent states do not have active groups dealing with invasive plant issues. Lists used include:
 - i. Southeast Exotic Plant Pest Council (SE-EPPC), Invasive Plants of the Thirteen Southern States, J. Miller, E. Chambliss, and C. Barger, 2004, <https://www.se-eppc.org/weeds.cfm>
 - ii. Alabama Invasive Plant Council (ALIPC), 2012, <https://www.se-eppc.org/alabama/2012-updatedALIPCinvasiveplantlist.pdf>

 - iv. Kentucky Exotic Plant Pest Council (KY-EPPC), 2013, https://www.se-eppc.org/ky/KYEPPC_2013list.pdf
 - v. Virginia Department of Conservation and Recreation (approved by the Virginia Invasive Species Working Group), 2015, <http://www.dcr.virginia.gov/natural-heritage/invspdflist>
- Inclusion of individual species on other official federal/state lists, which have some regulatory authority, is also noted. Particularly at the state level, these lists focus on weeds in agricultural systems. These include:
